

Infant Learning Program

Population: Birth—3 years

Region: Fairbanks, North Slope,
Copper River & Delta/Greeley Area

ILP provides services and supports to families with children birth to their third birthday when the child has a developmental delay or a disability that is likely to lead to a developmental delay. From the date of referral, ILP has 45 calendar days to determine if the child is eligible, AND if they are eligible, enroll for services.

Family Wellness

Population: Birth—8 years

Region: Fairbanks North Star Borough

The Family Wellness program identifies social emotional and parent/child relationship concerns prior to age 8, providing early supports to build positive relationships. ACCA provides screening, evaluation, developmental guidance, and community referrals to support children in the context of their family relationships.

FASD Diagnostic Team

Population: 3-17 years

Region: Northern Region

The FASD Diagnostic Team serves children experiencing difficulties related to prenatal exposure to alcohol. Services include screening and multidisciplinary evaluations leading to diagnosis and recommendations for intervention.

After evaluation, the FASD Coordinator provides guidance and support to caregivers establishing care and interventions for their child.

Connections DDRC

Population: Birth—Adult

Region: Interior Region

Connections DDRC serves as a first point of contact to help access and navigate the variety of disability services available. The DDRC will help develop strategies and natural supports to help participants achieve stability and independence. The DDRC assists individuals with intellectual and developmental disabilities access services through the Alaska Developmental Disabilities (DD) Programs.
